

UNCLAIMED CAPITAL CREDITS

The following pages include a list of San Isabel Electric members who have at least \$10 in unclaimed capital credit from San Isabel Electric.

The electric cooperative publishes the unclaimed capital credit list every April in an attempt to notify member-owners that the co-op issued them a capital credit check for at least \$10, and that check has not been cashed.

If your name appears on one of these lists, please call the co-op during business hours at 719-547-2160 and ask for the Capital Credits Department or email capitalcredits@siea.com. You will be required to provide proof of identity before claiming capital credits.

Capital credit is money back to you, based on how much electricity is purchased by you, the member-owner. Most utilities pocket left over money as profit when revenues are more than expenses. Electric co-ops set aside that money for members as capital credit, based on the amount of energy each member purchases. When it's financially safe to do so, the co-op retires (returns) the money to members. Members receive their share as a check right in their mailbox.

In September 2021, members from 1990, 1991 and 2020 received capital credits checks in the mail, reflecting their ownership

of the cooperative during those years. More than 17,000 capital credit checks were mailed to San Isabel Electric members, returning \$998,000 in capital credits to the co-op's membership.

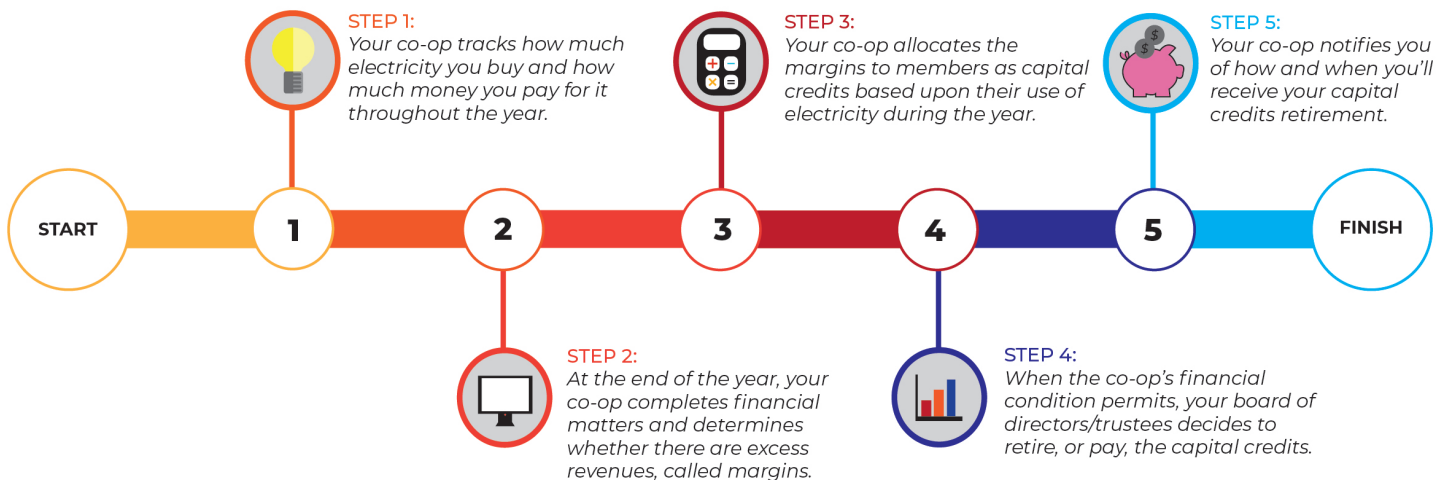

A full list of members with capital credits in their name will be published on the co-op's website, siea.com/capitalcredits, by June 1. If a member-owner has not claimed their unclaimed capital credit after three years, the co-op uses the money to fund scholarship programs and area service efforts approved by the board of directors, supporting hospitals, fire stations, county fairs, school sports, local chambers of commerce and more.

Unlike investor-owned utilities, electric cooperatives are exempt from writing off any money that is returned to the community as a tax write-off.

Members are encouraged to leave forwarding addresses with San Isabel Electric should they move off the system. In the case of a member's death, a representative of the estate should contact San Isabel Electric to determine the status of the member's capital credit checks, both now and in the future.

HOW CAPITAL CREDITS WORK

Because electric co-ops operate at cost, any excess revenues, called margins, are returned to members in the form of capital credits.
