

UNCLAIMED CAPITAL CREDITS

Below you will find a list of names of people who have an unclaimed capital credit from San Isabel Electric.

The electric cooperative publishes the unclaimed capital credit list every April in an attempt to notify member-owners that the co-op issued them a capital credit check for at least \$10, and that check has not been cashed.

Now, searching and claiming your capital credits is quick and easy. You can look for your name in the printed list, or you can now search an online database to see if we owe capital credits to you or one of your family members. If you're a current or former member and find your name, you can fill out an online claim, email capitalcredits@siea.com, or give us a call at 800-279-SIEA (7432) to start a claim.

Capital credit is money back, based on how much electricity is purchased by the

member-owner in a given year. Most utilities pocket leftover money as profit when revenues are more than expenses. Electric co-ops set aside that money for members as capital credit, based on the amount of energy each member purchases. When it's financially prudent to do so, the co-op retires (returns) the money to members. Members receive their share as a check right in their mailbox.

In September 2023, those who were SIEA members from 1978-1983, and in 1991 and 2021 received capital credits checks in the mail, reflecting their ownership of the cooperative during those years. More than 21,000 capital credit checks were mailed to San Isabel Electric members. \$1.4 million in capital credits was returned to the co-op's membership.

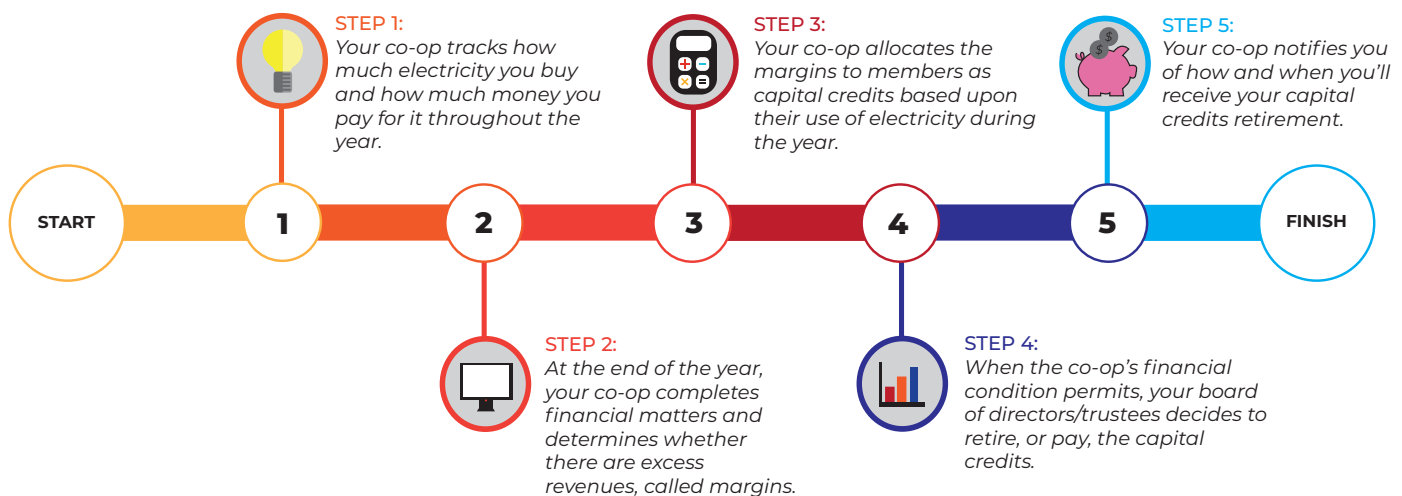

A full list of members with capital credits in their name will be published on the

co-op's website at siea.com/capitalcredits by June 1. If a member-owner has not claimed their capital credit after three years, the co-op uses the money to fund scholarship programs and area service efforts approved by the board of directors. The unclaimed money goes toward supporting hospitals, fire stations, county fairs, school sports, local chambers of commerce, and more.

Unlike investor owned utilities, electric cooperatives are exempt from writing off any money that is returned to the community as a tax write off. Members are encouraged to leave forwarding addresses with San Isabel Electric should they move off the system. In the case of a member's death, a representative of the estate should contact San Isabel Electric to determine the status of the member's capital credit checks, both now and in the future.

HOW CAPITAL CREDITS WORK

Because electric co-ops operate at cost, any excess revenues, called margins, are returned to members in the form of capital credits.
